Instructions

How To Connect?

1. Take your earbuds out of the case to power them ON.
2. Turn ON the Bluetooth on your mobile phone and search for active devices.
3. Select **beatXP Echo XPods**. Now your earbuds are connected to your phone and are ready to use.

Usage Guidelines

1. The earbuds need to be fully charged prior to first-time use. If you're not using the product for a long time, make sure you charge it every 30 days to keep the product active.

2. Use the earbuds at a comfortable hearing volume. This prevents any hearing damage. When you first use this product, keep the volume low. Put the earbuds on and gradually increase the volume.

3. Avoid using the earbuds while driving.

4. For safety purposes, avoid using the earbuds in environments where you need to be aware about the surrounding noise.

5. This product is assembled using small parts, hence keep it out of the reach of children.

6. This product is assembled using magnetic components. Please consult your doctor if you feel it's affecting any implantable medical equipment.

7. If the product seems to not be working, please contact customer support. Don't try to fix it yourself.

8. It is recommended to dispose the water-batteries properly by abiding to local regulations.

9. Any repair or maintenance should be done by authorized personnel to avoid the warranty being void.

10. It is not advised to use high voltage smartphone chargers. However, chargers with a capacity of 5V-10V can be used to charge XPods.

Charging Earbuds

Charging: When put into the charging case, the white LED of earphones are turned ON, indicating that the earbuds are charging.

Fully Charged: When the earbuds are fully charged, the LED of earbuds will turn OFF.

Charging the Case

Charging: Plug-in the TYPE-C charging cable to charge the case. The red LED of the charging case will start flashing, indicating that the case is charging.

Fully Charged: When fully charged, the red LED of the charging case will stop flashing.

**OFF** when the buds are put into the case.

Troubleshooting

1. **Unable to Power ON**
    Try charging the earbuds for 30 min and try again.

2. **Unable to Pair**
    Go to the **Bluetooth Settings** on your mobile phone, click on **Forget Device** for **beatXP Echo XPods** and put the case on charge. After 30-45 minutes, try again.

3. **Unable to Connect to Mobile**
    Place earbuds into the charging case. Turn OFF **Bluetooth** on mobile and Turn ON again. Take earbuds out of the case and try again.

4. **Unable to Charge**
    Ensure the earbuds are properly placed in the charging case. If not, gently press them in and clean the charging pin point.

5. **Only one earbud working/Either of the one not working simultaneously**
    Go to your mobile phone's **Bluetooth Menu** and click on **Forget Device** or **Disconnect** your earphones and put them back into the charging case. Then take the earbuds out of the case and try again.
